

## Struggle Like No Other

The Epoxies

Oh Oh Oh Oh  
Hush it's not safe to talk  
That terminal could be switched on  
The IBMs could monitor  
And flag the things we say  
Make sure you keep your cover up  
And cover up your TV  
When you call me  
And make sure you watch your TV every day  
And take nothing for granted  
It's a war always remember  
It's like holding back the ocean  
Trying to hold onto your mind  
Don't forget the reason  
Why you started in the first place  
It's a struggle like no other for the fate of humankind  
[repeat]  
And take nothing for granted  
It's a war always remember  
It's like holding back the ocean  
Trying to hold onto your mind  
Don't forget the reason  
Why you started in the first place  
It's a struggle like no other for the fate of humankind  
The fate of humankind  
(4x)
