

Blood and Water

The Escape Club

The time has come and we must part
Down to the river where our keepers are
Ah, come on, come on, I'll drag your heart
Down, down where the fever starts

Oh, river flowing, blood and Water
Take me home, into the night

River, river, blood and rain
Take me back to the child again
Sell me secrets, love and war
Back, back where we've been before

Oh, river flowing, blood and Water
Take me home, into the night

Change, river washes away
Oh, my, my, my name
Into the night
With my arms in the flood
I give blood to the rain

Come on, come on, I'll drag your heart
Down, to the river where the fever starts
Never, never gonna leave your veins
The river give and she take away

Come on, come on
Oh, come on, come on

Oh, come on, come on, I'll drag your heart
(Blood and water, blood and water)
Oh, come on, come on, I'll drag your heart
(Into the night)

Yeah, come on, come on, I'll drag your heart
(Blood and water, blood and water)
Oh, come on, come on, I'll drag your heart
(Into the night)
