

# Can't Leave The Party

The Escape Club

This party's over  
But it just keeps on going  
And I should really leave here  
But I can't get out the door  
Down in the basement

They took on a new groove  
And they ran out of cool new  
But they just sent out for more  
Here we go again

Can't leave the party  
Having a good time  
Can't leave the party  
Since 1989

Can't leave the party  
We're grooving to the vibe  
Can't leave the party  
And you ain't leaving, dead or alive

I met a Princess  
She said she come from outside  
She got stuck to a mirror  
Soon as she walked in the room  
She Neo-Con recitals

She said she satisfies those  
High rolling rollers  
Keep her living in the groove  
Let me tell you now

Can't leave the party  
Having a good time  
Can't leave the party  
Since 1989

Can't leave the party  
We're grooving to the vibe  
Can't leave the party  
And you ain't leaving, dead or alive  
Can't leave this goddamn party

Emo teenagers tell me  
That they've been chosen  
But I've seen those vampires  
From like twenty years before  
They've got no shadows

And they, they shimmy slowly  
Look like Bella Lugosi  
Yeah, they're crowding out the floor  
Here we go again

Can't leave the party  
Having a good time  
Can't leave the party

Since 1989

Can't leave the party

We're grooving to the vibe

Can't leave the party

And you ain't leaving, dead or alive
