

We Can't Go Wrong

The Escape Club

We're moving on
To the soundtrack of our favorite song
Engine running now, the morning's come
Windows open wide, we can't go wrong
Let's take a ride
Leave behind the wreckage of our lives
Tie it down and leave it all behind
Cheating on those memories
We've gone, we're moving on

And I don't know where to take you, you decide
Choose a road and don't let go
The day's begun, our favorite song
We can't go wrong

We're moving up
Today's the day the arguments all stop
Let's hit the road and see where we end up
I've seen the silver screen, it won't take long
The radio's on

And I don't know where to take you, you decide
Choose a road and don't let go
With Ray-Bans on, our favorite song
We can't go wrong

And darling, we're driving
Away from our lives
Don't suffer in silence
This time, we'll be fine

We're moving on
To the soundtrack of our favorite song
Our windows open as we sing along
Surely now, this time, we can't go wrong
We can't go wrong

But I don't know where to take you, you decide
Choose a road and don't let go
We've started on our favorite song
We can't go wrong
But I don't know where to take you, you decide
Choose a road and don't let go
The day's begun with our favorite song
We can't go wrong
