

All I Ask Of Life

The Everly Brothers

I know I'd never care
If life should leave me blind
As long as I could I see
The love-light in your eyes
I'd want for nothing else
If you were only mine
For all I ask of life is love from you
I'd never once regret
My life if were deaf
As long as I could hear
You speak to say you care
The world could disappear
As long as you were here
For all I ask of life is love from you
