All I Ask Of Life

The Everly Brothers

I know I'd never care

If life should leave me blind

As long as I could I see

The love-light in your eyes

I'd want for nothing else

If you were only mine

For all I ask of life is love from you

I'd never once regret

My life if were deaf

As long as I could hear

You speak to say you care

The world could disappear

As long as you were here

For all I ask of life is love from you
