

I Can't Sleep

the everybodyfields

Before I was down and I'd come around
but when it all hit I was out of town
and then you and me out of everybody else

and two became one in the aftermath of
it laid you and me in the arms of the sun
and I believe, and you won't see me for three days

and I can't leave 'cause I can't see anyway around you
now
and I can't stay, 'cause I can't breathe the entire world
is upside down
and I can't sleep...'cause I don't dream of you anymore.

a hollow sky and empty room
the night isn't mine the mornin's gloom
it seems to be spoken from a tree that never knew
up and away and how many days
7 more and just one pay
and when I come gonna bring the sun to see your face

and I can't leave 'cause I can't see anyway around you
now
and I can't stay, 'cause I can't breathe the entire world
is upside down
and I can't sleep...'cause I don't dream of you anymore.
