

## Drift Away

### The Expendables

How can I comprehend the consequences of my decision  
It's so frustrating  
How can my life reflect upon my envision  
My concentrations failing  
People say it's time to stop pretending  
The answers will come my way  
Time can only heal wounds that need mending  
That's just the price that we pay  
Watch swim away  
From this place that I don't know anymore  
Watch me drift away  
From this place that was my shore  
How many time have I told myself to stay away  
Countless numbers  
How many times should I have left when she told me to stay  
I can't even remember  
If I could easily escape this situation  
If I only could  
If I could easily control my hesitation  
If I only would
