

## Get What I Need

### The Expendables

I'm standing tall so deep inside of you  
Time slows down when I make it through  
I love your green walls  
Yet I stand so dry  
As I go on with ease to the other side

You cant get me to do anything else  
When there's something heavy hitting deep from the  
south  
Like a zombie I will follow each drop  
I'm not gonna stop until my arms fall off

I gotta get what I need  
I wanna watch it throw over me  
I want to sit deep right over that reef  
And have it all for me  
I gotta get what I want  
No it's never enough  
When it lays out like glass  
And it wraps around fast  
No I can't get enough  
No I can't get enough  
No I can't get enough  
I gotta get what I need

You move quick  
Yet I ain't jumping ship  
I always want more when you swallow me whole  
When I'm under I wonder how long I can swim  
Into the deep  
Sitting here in solitude so happy I could sink

There's one thing that I cant deny  
When we get together my hearts in flight  
You cover me up or you shut me down  
Either way I know your not messing around
