

Last Call

The Expendables

A lot of shit has gone down tonight
Saw some riot police saw a robbery
We had a chance to catch the feels
Gonna keep my mouth shut
They gave us too granted close our eyes
So we hopped a few bars
Partied like rock stars
You even found a girls key
I roll in the night passin krip for me to light
This next round of crown is on me
No don't you worry now your gone in blurry

Don't you let me sit here alone
Cause we got a bunch of money yea
Don't want to spend it on my own

So let me buy you one more drink
What do you say what do you say(2x)

A while im really buzzin now
Gonna get up on the floor
With this pussy galore
I got to find a girl who's just a whore
Gonna come to me tonight
Woa I hope she screams loud
So make an arrest
She's got a big chest
She's over there by the door
Just like a cop on a routine stop
Let your lights and let your sirens roar
So unbelievable now the achievable

Don't you let me sit here alone
Cause we got a bunch of money yea
Don't want to spend it on my own

So let me buy you one more drink
What do you say what do you say(2x)

Live it up live it up my friend yea(4x)

I hope we don't get into a fight
Were bein way to loud there telling us to calm down
Were bugging everyone around
Awoawoawoawoawoa yea we don't care
So rack one more up were not drunk enough
We aint gonna leave till we eve
The nights gonna end last calls at 2 am
And the bartender wants us to leave
So are you with me let's get shitty
Don't you let me sit here alone
Cause we got a bunch of money yea
Don't want to spend it on my own
So let my buy you one more drink
What do you say what do you say
Don't let me buy you one more drink
What do you say what do you say

So let me buy you one last drink what do you say
