

No Higher Ground

The Expendables

There ain't no higher ground
That we can run to
Don't you worry my house is safe
There ain't no higher ground
That we can run to
I've got a boat just in case

The water gets too high
Don't you start to cry
I will be by your side
Until we're safe
When the day turns into night
Sit by my fire light
I will keep you warm
Until the break of day
Until the break of day

There aint no higher ground
That we can run to
Don't you worry my house is safe
There aint no higher ground
That we can run to
The roof will keep us out of the rain

When the clouds start rolling in
And the world is getting dim
Lift your burdened chin
And look at me
No I cannot change the weather
So we'll get through it together
You and me baby is all we need
