

Sippin On Something

The Expendables

It's Monday headed to work
I'll never make it in time
And just up ahead
I see the airport sign
We're taken off let's get the hell out of here
For some red hot sun and ice cold beer and

You and me by the sea
Just sippin on something
Walking round on the beach
You're wearing next to nothing all right
Well just the view and and the sand with a drink in my hand
Bob Marley cover band's music is bumping all night
You and me by the big blue sea
Sippin on something

It's been way too long
Since you and I got a way
And I think that we
Deserve a little vacay-tion
I know a place that we can go
A little closer to the sun down in old Mexico yeah

You and me by the sea
Just sippin on something
Walking round on the beach yeah
You're wearing next to nothing all right
Just the view and and the sand with a drink in my hand
Bob Marley cover band's music is bumping all night
You and me by the big blue sea
Sippin on something

There's storm waiting for me I just don't wanna know
But this sun is so warming I just may never go home

You and me by the sea
Sippin on something
Walking round on the beach yeah
You're wearing next to nothing all right
Well just the view and and the sand with a drink in my hand
Bob Marley cover band's music is bumping all night
You and me by the big blue sea
Sippin on something

You and me by sea
You and me by the big blue sea
You and me by sea
Sippin on something
