

She's just as loose as me
I don't want the rejection so I'm keeping it cool
I catch her look my way
For a moment she looks down
She was biting her lip
And I don't mind just where she's been now
Cuz I've been there many times before
I ain't looking for someone to love
Just a score
I ain't worried about it this time
I ain't ever goin die
I ain't worried about it this time
I'm gonna get, I'm gonna get it tonight
These moments by ourselves
I don't want them wasted
But I already am
She begs me on her knees
I ain't got the protection
Now it's already in
And I don't mind just where she's been now
Cuz I've been there many times before
I ain't looking for someone to love
Just a score
I ain't worried about it this time
I ain't ever goin die
I ain't worried about it this time
I'm gonna get, I'm gonna get it tonight
