Deliver Us

The Explosion

Give us this day our daily dead
Keep it in the news 'til the ban's been lifted
When it's given a name and it's given a face
It's easier to separate, confuse and debase

Believe it now, the information's true
We will move on with or without you
Trespass again and again
Give us this day

Deliver us, deliver us
Deliver us, deliver us

Is this the present or the past or the phantom's mask?
A vision of a vision or the mirror smashed
A second or a minute or the hour that's past
I catch it, release it, flash, flash, flash

Believe it now, the information's true
We will move on with or without you
Trespass again and again
Give us this day

Believe it now, the information's true
We will move on with or without you
Trespass again and again
Give us this day our daily dead
