

# I Could Never Hate You

The Eyeliners

Been friends for so long  
I've got a picture of you  
Hanging up on the wall  
You say that you believe  
That something's changing  
That someone has come between you and me  
A friend you'll always be  
You know that I will never let you down  
I'll tell you I could never hate you

[Chorus]

I could never hate you

We may not always agree  
And things don't happen  
Like they do on the silver screen  
But I know your favorite things  
Your loves, your hates, your pet peeves  
And everything in between

When things are up or down  
No matter what goes wrong  
I'll always be around  
I'll tell you I could never hate you

[Chorus]

Watching movies all night long  
Or trading tapes that we made of our favorite songs  
Will you ever see just what you mean to me?  
And I will cherish these memories

When things are up or down  
No matter what goes wrong  
I'll always be around  
I'll tell you I could never hate you

[Chorus]
