Play It Again

The Eyeliners

You're in your suburban home
Hanging on the telephone
I'm in my room playing records

It takes me to another world
Like holidays in the sun
Or when I am looking for a kiss

When I sit in my room
I listen to it over and over

[Chorus]
Play it again - I think I'm obsessed with you
Play it again - I can't get enough of you
Play it again - wearing out my sound system
Play it again - that song that I can't get off my mind

I met you in my wild youth
That's when I fell for you
But you were 2000 light years away

Well I guess I always knew
I'd have to say goodbye to you
Why is it always this way?

When I'm driving in my car
I listen to it over and over

[Chorus]
