

# Rock This Place

The Fabulous Thunderbirds

Well, I was sitting in my room playing on my old guitar  
Thinking about you, baby acting like a movie star  
When the telephone rang  
They said you're at the local bar

So I jumped and ran as fast as a man can run  
Don't know where but the night was made for fun  
'Cause if I ever loved a woman, baby  
You're the only one

So, let's rock this place  
Let's rock this place  
Let's rock this place  
Till everybody says it's alright

Let's rock this place, let's rock this place  
I want a whole lot of gimme, gimme  
'Til the whole room shakes and shimmies  
Let's rock this place, rock this place tonight

When I saw you in the corner  
I knew you was waiting for me  
Well, you had the look about you  
You surely make a blind man see

And if you froze a million dollars  
You'd give it to me all for free

So, let's rock this place  
Let's rock this place  
Let's rock this place  
Till everybody says it's alright

Come on let's rock this place  
Let's rock this place  
I want a whole lot of gimme, gimme  
Till the whole room shakes and shimmies

Let's rock this place  
Rock this place tonight

Come on let's rock this place  
Let's rock this place  
Let's rock this place  
If everybody says it's alright

Let's rock this place  
Let's rock this place  
I want a whole lot of gimme, gimme  
Till the whole room shakes and shimmies

Let's rock this place  
Rock this place tonight  
Yeah, let's rock this place  
Rock this place tonight
