

# Somebody's Getting It

The Fabulous Thunderbirds

Somebody's getting it  
Somebody's getting your love  
Somebody's getting it  
Somebody's getting your love

My eyes are open  
I don't like what I see  
Somebody's getting my action  
Someone other than me

'Cause when I kiss you  
It just ain't the same  
You slipped the other night and  
Called me someone else's name

Somebody's getting it  
Somebody's getting your love  
Somebody's getting it  
Somebody's getting your love

I thought I had you  
In the palm of my hand  
Tried to hide you from  
All the other men

You knew I was tipping  
With someone else  
You gave me enough rope  
To hang myself

Somebody's getting it  
Somebody's getting your love  
Somebody's getting it  
Somebody's getting your love

Somebody's getting it  
Somebody's getting your love  
Somebody's getting it  
Somebody's getting your love

Somebody done got it  
And split the scene  
Should've been home  
If you know what I mean

Somebody done got it  
And split the scene  
Should've been home  
If you know what I mean

I should've been home  
I was not around  
Leaving you alone  
While I was having my fun

You refused to be lonely  
Just waiting for me

So you found someone else  
To keep you company

Somebody's getting it  
Somebody's getting your love  
Somebody's getting it  
Somebody's getting your love  
...
