

When I Get Home

The Fabulous Thunderbirds

As I sit here and write this letter
I feel so close to you
In my heart I promise you forever
I'm never gonna leave you alone
When I get home

I can smell the breakfast on the table
And I can hear your voice so clear
I'll be there as soon as I'm able
I'm never gonna leave you alone
When I get home

And I miss you more than you can know
Wish I was there just to tell you so

When my world seems about to unravel
I've always got this picture of you
And a dream I carry through my travels
I'm never gonna leave you alone
I'm never gonna leave you alone
I'm never gonna leave you alone
When I get home

When I get home and I don't, don't know when
Oh, when I get home, we can start
We can start all over again, well

I'm never gonna leave you alone
I'm never gonna leave you alone
Oh, I'm never gonna leave you alone
When I get home, oh

I'm never gonna leave you alone
I'm never gonna leave you alone
I'm never, never, never, never
Never gonna leave you, baby
Oh, it's been a long time now
I'm never gonna leave you
Dry the tears from your eyes, oh...
Yeah, please, wait for me
I'll be home soon now
Can't wait to see you
Won't be long, baby
