Fire

The FAIM

Can you feel it
When your mind don't got no limits
And you won't stop till they know your name
You've got the chance but you've gotta win it, oh

And she's watching
While her whole world turns to nothing
And she's on her own when she feels colder
'Cause there's no real home without you, whoa-oh

If I saw you in this moment
I'd give you all the time
But I'll call you, when I'm done
Singing songs for the night

I started a fire, that I can't burn out
I'm higher, and I can't come down
Desire, is taking control over me

I started a fire, that I can't burn out
I'm higher, and I can't come down
Desire, is taking control over me

And it's so wrong
That I bleed her heart for so long
And I wish I could be the one who stayed
But I'll be chasing stars till I'm gone, whoa-oh

So I'll keep you in a photograph
Through the darkest of the times
As I'll leave you with a broken smile
That'll never leave my eyes

I started a fire, that I can't burn out
I'm higher, and I can't come down
Desire, is taking control over me

I started a fire, that I can't burn out
I'm higher, and I can't come down
Desire, is taking control over me
(Taking control, taking control over me)

I started a fire, that I can't burn out
I'm higher, and I can't come down
Desire, is taking control over me

I started a fire, that I can't burn out
I'm higher, and I can't come down
Desire, is taking control over me
(Taking control, taking control over me)
