

In the eye of eyes  
The mind of minds  
We paint the truth  
And then defend it  
Meet yourself  
Find your hell  
But keep believing  
You've got the answers

Climb inside the mirror  
Backward the words  
"Darkness is a perspective"  
And we've got our heads in dirt

I've been watching the ego work  
I've been watching the ego work

A toxic tongue  
A song unsung  
We know the signs  
We know possession  
Feel the rage  
Manipulate us

Just beyond the looking glass  
Down the tunnel - go ask Alice  
Tender nerves spin the earth  
We've got our heads in dirt

I've been watching the ego work  
I've been watching the ego work

Climb inside the mirror  
Backward the words  
"Darkness is a perspective"  
And we've got our heads in dirt

I've been watching the ego work  
I've been watching the ego work  
I've been watching the ego work  
I've been watching the ego work
