

Projector Project!

The Faint

I contradict myself, no, I don't
I think the world of what I think I know
What I'm afraid I am - I redirect
We've got labels for that
Projector Project!
Shadows
Projector Project!
Shadows

Don't be afraid, the situation is fine
You have nothing to lose but your life
People can change, but I don't take that bet
Patterns never rest
Projectors Project!
Shadows
Projectors Project!
Shadows
Projector!

It's not a lie if I believe it myself
If I'm so smart, how come I'm miserable?
The part of you I point out I most detest
...and resemble best
Projector Project!
Shadows
Projector Project!
Shadows
Projector!
