

# In My Area

The Fall

The dwarf plays pool to prove his height  
People play games when they lose in life  
There's no sport, lad, just acid tension stomach flash  
A madness in my area

I have seen the birth of bad  
I have seen declining tracks  
I have seen the madness in my area

Understand time till I'm asked about it  
Years cross-check, days become a tick  
Can't remember who I've sacked, just stupid faces looking bad  
The madness in my area

I have seen the birth of bad  
I have seen declining tracks  
I have seen the madness in my area

Former friends suck on the Fall  
Genuine white crap article.  
Their future cries  
of broken pain are idiot victims'.  
Just adds to the madness in my area

I have seen the birth of bad  
I have seen declining tracks  
I have seen the madness in my area

Politic comic fools in full bloom  
McCarthy reincarnate soon  
See the bones on the two-late faces  
The me generation  
See the traces of  
The madness in my area

I have seen the birth of bad  
I have seen the declining tracks  
I have seen the madness in my area

I have seen the burrowmen  
Frozen pain that is so bad  
I have seen the madness in my area  
Madness in my empire  
In the writer  
The Berlin fighter  
In the mirror  
The doppelganger  
The new satire [boozed satyr?]

Blood and sand....
