

My Condition

The Fall

My condition
Take it easy
Make it snappy!

When home want out
When out want in
What is this condition?
What is this condition?

I'm in a ring of fire
It's what I've wanted all my life
Guitars ring din higher
But now I want a fire extinguisher

What is this condition?
What is this condition?

I'm an astral clockwatcher
A waste of the universal taxpayer
What is this condition?

Tell me the position
I'm up the junction
What is this condition?
What is this condition?

(They're eating out the can)
(They're eating out the can)

What is this condition?

I'm up the junction
What is this position?
What is this condition?

What is this condition?
There was...
My song is gritty
And people are shitty
What is this condition?

Go round it up now
We'll finish it up now
What is this condition?
