

# Over Over

## The Fall

Over! Over!

Ha ha ha ha ha ha!

I think it's over now, I think it's ending  
I think it's over now, I think it's beginning

(I don't love you and I never did)

A seven-year cycle seems to happen every day  
(I don't love you and I never did)  
I walk up the hill and then  
Descend in every way

I think it's over now, I think it's ending  
(I don't love you and I never did)  
(I don't love you and I never did)  
I think it's over now I think it's beginning  
(I don't love you and I never did)  
(I don't love you and I never did)

A seven-year cycle seems to happen every day  
It is now ending now it is beginning  
(I don't love you and I never did)  
(I don't love you and I never did)  
I think it's over now, I think it's the beginning  
(I don't love you and I never did)  
(I don't love you and I never did)

One day three fellows they all clubbed together  
To get their hair back and replace their shiny heads  
All tan-skinned, they did sail the shiny sea  
I think it's over now, I think it's ending  
(I don't love you and I never did)  
(I don't love you and I never did)  
I think it's over now, I think it's beginning  
(I don't love you and I never did)  
(I don't love you and I never did)

To find their head clown it was shut by the EC  
With Refurbishing Incorporated plc

I think it's over now, I think it's beginning  
I think it's over now, I think it's ending  
(I don't love you and I never did)  
(I don't love you and I never did)

Seven-year cycle  
(I don't love you and I never did)  
Happens every day  
(I don't love you and I never did)  
Walk up the hill  
(I don't love you and I never did)  
And descend in every way

I don't love you and I never did  
I don't love you and I never did

I don't love you and I never did

We are not over yet, not even started

And they all club before, together

(I don't love you and I never did)

I think it's ending now, I think it's starting

(I don't love you and I never did)

I think it's over now

Over! Over!

A seven-year cycle happens every day

The mention of the (?)

(I don't love you and I never did)

(I don't love you and I never did)

I think it's ending now, I think it's beginning

I think it's over now, I think it's

Ending
