

Ride Away

The Fall

As we travel through hill and valley
Ridin' away don't know what you do when you accuse me
You're talking about yourself
You think you're a giant
You think you're a nothing hey hey
(You drive them away)
(You drive them away)

You spread lies and discontent I wish you could see yourself
You drive them away
Through hill and valley
Ridin', ridin', ridin', ridin'
A-hey-hey
(You drive them away)
(You drive them away)

You think you're a giant you know you're nothing hey
Nothing to do with me
You're gone ridin', ridin', ridin'
You spread lies and discontent
I wish you could see yourself
(You drive them away)
(You drive them away)

Drivin'
As you travel through hill and valley
Ridin' away
Ridin' away
A-hey-hey
You drive them away
A-hey-hey
(You drive them away)
(You drive them away)

Well, you accuse me you talk about yourself you think you're a giant but you
're nothing
You're talking to yourself
And no one else
A-hey-hey
(You drive them away)
(You drive them away)

Buster
I wish you could see yourself you drive them away
No matter what I say
Hey hey
As you travel through hill and valley drive them away
That's what I say
(You drive them away)
(You drive them away)

You think you're a giant you think you're a giant hey
As you travel through hill and valley listen what I say
Nothing to do with me
Just ride away
(You drive them away)
(You drive them away)

While you're ridin' away you remember everything
That I say
Hey hey
Hear what I say
You drive them away
Hey hey
What I say
(You drive them away)
(You drive them away)
(You drive them away)
(You drive them away)
