

Second House Now

The Fall

There's ghosts
I get a lift on highway
WM dot C
Where ya been?
Where ya going, man? (this is reply)
Nowhere to go, this is his reply:
Ghosts are rising
Coming down
It's al return
He's coming back... ward

He said I'm going to a big city
My image, black and white
Said he's going to big city
My image, black and white
The tearing of muscle years

Sword of Mexico
Spirit-like
Horrible
Its sword is red

I'm going to big city
My mirage: black and white
Sword of Mexico
Any spirit-like
New facts emerge

The city lights used tonight in
The AM/PM
Come chew you up
I'm going big city
My image in black and white
Apparition-like
Come on! Come on!
Everybody come on with me!

Down on the street
Wind rising red
Am/P
Within, rising red
Circle trails around

Come on! Come on!
Come on! Come on
Going to the big city
Come on! Come on!
Everybody come on with me!
Tearing of muscle years
Black and white!
