

The Acute

The Fall

Do I look like I have on my forehead?

Do I look like I have on my face?

Complain here

And rip me off

My advice to you is this

Keep your pen with a cap

Don't press your finger in the wrong socket

And to sum up

The motive of this film is

Keep your cap on your pen

And your dick in your pants

Do I look like

I have

Written on my forehead?

On my forehead

On my forehead
