This Perfect Day

The Fall

Don't talk to me 'bout what you done
There's nothing changed it still goes on
But I'll keep laughing to the end

And I've been around this old big world
In all your cars and sexy bars
It's all so funny...

You're perfect day
Your mummy says
Your perfect day

...I can't laugh

There's no high times only bad
It's all so bad I can't go back
This perfect day
Your momma says
You don't need no one to tell me what I don't already know
Your mummy says
Your perfect day
Your mummy says
Your perfect day

I don't need no one to tell me what I don't already know

Don't talk to me about what you done
There's nothing changed it all goes on
Your perfect day
Your momma says
Don't need no one to tell me what I don't already know

I need nothing
I need no fun
I don't need nothing
Nothing at all
