

Winter 2

The Fall

On the first floor of the dryout house
Was a replica dartboard
And the man on the floor
Sorta went out of window, over the lawn
And round to the mad kid

Please, take this medallion
Please, wear this medallion
It's no sign of authority
Wear the gold and put it on

(Winter)

So around the mad kid
Man on the first floor said

I just looked round
I just looked round
I just looked round
And my youth, it was sold

I just looked round
I just looked round
And my youth, it was sold

Two white words frost the sky
There fly krakens
And sometimes, that little...
Makes me tremble

The mad kid had 4 lights, the average is 2.5 lights
The mediocre has 2 lights, the sign of genius is three lights
There's one light left, that's the one light, that's the science law
