

Breathe In The Darkness

The Famine

Oh descension coursing through these veins. Never having had the chance to tell you to your face. In the earth you will remain. Taking more than could be repaid. Uplift, drown it, breathe in darkness. All these years one simple fact remains the same. You died alone retching in your grave. Uplift, drown it, breathe in darkness. Oh compassion just thrown away. Everything you ever said was just decay. In the earth you will remain. Taking more than could be repaid. Uplift, drown it, breathe in darkness. All these years one simple fact remains the same. You died alone wretching in your grave. Uplift, drown it, breathe in darkness. Through these scars forgiveness will not reach you. What could not be killed you let destroy you.
