

## All I Ask

### The Features

I got a lazy mind it only works part time.  
It wont do what I ask not even simple tasks.  
So if you need advice might have to ask you twice.  
I hope you understand, I do the best I can.

I wont give up on you, so don't give up on me.  
Oh baby please I'm down on my knees.  
That's all I ask of you.

I got a stubborn heart it never plays a part.  
Scenes will come and go before it learns its role.  
So when it comes to lines, might have to improvise.  
I hope you understand, I do the best I can.

I wont give up on you, so don't give up on me.  
Oh baby please I'm down on my knees.  
That's all I ask of you.  
Try to understand, doing the best I can.
