

Maybe she will
Maybe she won't
Find what she's looking for

Maybe she does
Maybe she don't
It's hard to say, nothing more

Everything stands the same as before
It's all so vague, spare me some more
I thought I knew what you were going through
But I don't

Maybe I will
Maybe I won't
Find what she's looking for

Maybe I do
Maybe I don't
It's hard to say, nothing more

I'll feel better knowing I'm wrong
As I lose touch, it turns her on
I thought I knew what you were going through
But I don't

Maybe she will
Maybe she won't

Maybe I do
Maybe I don't
