From Now On

The Features

Dreamed last night about a time and place Where from our troubles we had escaped I held your hand then I felt complete As you turned and said to me:

From now on, from now on we'll be You and me, we will be From now on, from now on we'll be You and me, you and me, we will be

Years went by and nothing changed The love we shared just stayed the same As hair grew grey on top of our heads Every night I'd quietly say:

From now on, from now on we'll be You and me, we will be From now on, from now on we'll be You and me, you and me, we will be

Only a dream...
Only a dream...
Only a dream

From now on, only a dream
From now on, only a dream
From now on, only a dream
From now on, you and me, we will be
