

I Should Have Known Better

The Features

If you feel like the path you're on is wrong
Turn around, turn around
When you know the flag you fly has flown
Bring it down, bring it down

I should have known better
But I know better now

If you feel like you've never felt before
There's a chance you're in love
When you can't remember how it goes
Make it up, make it up

I should have known better
But I know better now
