

# Long Walk

## The Features

Took a long walk  
Down a short trail  
Western wind blew in  
Darkness fell

The stars were out  
Your face aglow  
And it was there and then  
I did know... Oh

I love you  
I love you  
I love you  
I love you

Took a long walk  
Clouds rolled in  
A heavy rain fell down  
That was when

I took your hand  
We pressed on  
You might have had your doubts  
But I knew all along... Oh

I love you  
I love you  
I love you  
I love you

Now  
This is where we are  
There  
Is where we will be

From here  
Forward, together we'll embark  
On a long walk

I love you  
I love you
