

Special Place

The Features

Don't worry, baby
There's plenty of room
I've got a special place
For you in my heart

It's not quite as empty
As you might assume
I've got a special place
For you in my heart

Now my wheels they take a portion
'Cause they get me to you
And my record collection
Takes a section, baby
'Cause it always sets the mood

Don't worry, baby
I'm making some room
I've got a special place
For you in my heart

I'm removing the cobwebs
And pushing my broom
Got a special place
For you in my heart

Now my wheels they take a portion
'Cause they get me to you
And my record collection
Takes a section, baby
'Cause it always sets the mood

Don't worry, baby
There's plenty of room
I've got a special place
For you in my heart

It's not quite as empty
As you might assume
Got a special place
For you in my heart

Special place for you in my heart
Special place for you in my heart
Special place for you in my heart

Don't worry, baby
