

## Two Hearts

### The Features

I get a little bit nervous  
I get a little bit shy  
And I'm tired of coming round here  
When you look me in the eye

I'll never forget  
As your hand reaches mine  
I'll never forget  
Just as two hearts collide

I've never been better  
Never felt more complete  
As I do when we're together  
As I do when it's only you and me

I'll never forget  
As your hand reaches mine  
I'll never forget  
Just as two hearts collide

That's when two hearts collide  
That's when two hearts collide  
That's when two hearts collide  
That's when two hearts collide

I'll never forget  
As your hand reaches mine  
I'll never forget  
Just as two hearts collide

That's when two hearts collide  
That's when two hearts collide
