

## Here Before

The Feelies

Everything looks familiar  
Like I've been here before  
Another one in a million  
Another knock on the door

Slowing down to look clearly  
See the world flying by  
Didn't say it was easy  
Never said you didn't try

Take a look around  
Turn another way  
It's not like before  
Not like this today  
It's okay  
It's alright  
Another day  
Another night
