

Waiting

The Feelies

Waiting so long
Waiting till dawn
No chance, so forget it
Break down, if you let it
Could be so far away now

Energy take you higher
Seventeen, really wired
Slow down, don't forget it
Burn out, if you let it
Could be so far away now

Where you going?
Don't think about that
Head in the clouds
Don't know where he's at

Slow down, don't forget it
Burn out, if you let it
Could be so far away now
