

Alien

The Feeling

Mmmm ooh, you make my heart sing
Ooh, you got me dirty
Everybody's dancing
Somebody's even chancing
But they don't understand
That they won't understand
They no boy ain't no man
They're from another land
Planet that you wanna know
Then their brains will explode
If their minds overload
So let there be a world man

You seem beyond the sun
My beautiful my alien
So far from everyone
My beautiful my alien
I look into your eyes
Then I can see above the skies
Make me forever young
My beautiful my alien

People on the street go
So you stutter at your feet so
China be your street yow
But that ain't no it's a bee no
Cause when you came along
Like a new kind of song
Kind of good kind of bone
I knew my heart was gone
And that should be your faith
Cause the ships have grenade
I'm a town, I'm a space
I don't care where you from, where you from

You seem beyond the sun
My beautiful my alien
So far from everyone
My beautiful my alien
I look into your eyes
Then I can see above the skies
Make me forever young
My beautiful my alien
My alien my alien, oh
...
