

Feels Like Christmas

The Feeling

Cold fingers, cold hands
Don't pray for the snow you could wait for ever, ever
Cold fingers, cold hands
Cold feet where the rain made it through the leather
It's lovely weather

I know it's cold tonight
But it's warm inside
That's all down to you
So light the fire
Got me singing

Na na na na
Is it Christmas?
Or am I just going insane?
Na na na na
Is it Christmas?
So happy to be with you again
Na na na na
Feels like Christmas
And baby I ain't even religious

Cold fingers, cold hands
Cold hearts fill my world like the ghosts of summer
I miss the summer
And I need you or someone
Sometimes we just need to hear the words I love you
I love you

God knows it's cold outside
But I'll be alright
See I don't feel the chill, must be love
Got me singing

Na na na na
Is it Christmas?
Or am I just going insane?
Na na na na
Is it Christmas?
So happy to be with you again
Na na na na
It feels like Christmas
And baby I ain't even religious

Everything's good when I'm with you
Everything's good and clean and new
Everything's good when I'm with you
Oh oh oh

Na na na na
Is it Christmas?
Or am I just going insane?
Na na na na
Is it Christmas?
So happy to be with you again
Na na na na
It feels like Christmas

And baby I ain't even religious

Thank you
