

High Like You

The Feeling

Your parents worked for banks in the Eighties
Stayed home at night and listened to Enya
Woke early to make deals with Kuwaitis
But you're making up for them

They bought you that refined education
They gave you every reason to blend
They always voted lower taxation
But you're making up for them
Each and every weekend

I wanna be, I wanna be, I wanna be up there
I wanna be, I wanna be, I wanna be high like you
I wanna be, I wanna be, I wanna be up there
I wanna be, high, high, high, high like you

High like you

You ever scared you might live forever
You scared someday they'll give you the chance
To live a life of always and never
There's always time to dance
You'll never end this dance

I wanna be, I wanna be, I wanna be up there
I wanna be, I wanna be, I wanna be high like you
I wanna be, I wanna be, I wanna be up there
I wanna be, high, high, high, high like you

High like you
High like you

I wanna be, I wanna be, I wanna be up there
I wanna be, I wanna be, I wanna be high like you
I wanna be, I wanna be, I wanna be up there
I wanna be, high, high, high, high like you

(Please take me up, take me up, take me up)
High, high, high, high, high, high like you
High, high, high, high like you
(Please take me up, take me up, take me up)
I wanna be, I wanna be, I wanna be up there
I wanna be, I wanna be, I wanna be high like you
