

Seek Asylum

The Feeling

I know that it's good to be home
The world won't leave you alone
The things in the city are lonely
But you don't deserve it
I haven't seen a smile for a day
Faces turning away
I know how it feels to be different
But we do it anyway

Do it anyway
Do it anyway

If you lived in my country
Far away from your home
You could be who you want, babe
Far and free from it all
If you lived in my country
I'd keep you out of the cold
You and I could be happy
Seek asylum and come home

I show you how to belong
In this fucked up [?]
These people don't know the history
But their streets are changing
And you've got nothing to lose
For a town that won't let you choose
Who is it you want to give love to?
But you do it anyway

Do it anyway
Do it anyway

If you lived in my country
Far away from your home
You could be who you want, babe
Far and free from it all
If you lived in my country
I'd keep you out of the cold
You and I could be happy
Seek asylum and come...

Do it anyway
Do it anyway
Do it anyway
Do it anyway

If you lived in my country
I'd keep you out of the cold
You and I could be happy
Seek asylum and come home
If you lived in my country
Far away from your home
You could be who you want, babe
Far and free from it all
If you lived in my country
I'd keep you out of the cold

You and I could be happy
Seek asylum and come home
