

## Spiralling

### The Feeling

Who could ever call you mean?  
Who would call you fake?  
No suprise you walked away pristine  
It's not your heart that had to break  
Tell me what you did or want to try  
Guess you never cared enough  
Easier to fade into the night  
You only hurt the ones you love  
You only hurt the ones you love

So round and round  
And down and down  
And deeper with every turn  
Spiralling out of love  
Spiralling out of love  
The pilot stalls  
The plane it falls  
And everyone on it burns  
Spiralling out of love  
Spiralling out of love

Who could ever call you mean?  
Who would call you fake?  
No suprise you walked away from me  
It's not your heart that had to break  
It's not your heart, just my mistake

So round and round  
And down and down  
And deeper with every turn  
Spiralling out of love  
Spiralling out of love  
The pilot stalls  
The plane it falls  
And everyone on it burns  
Spiralling out of love  
Spiralling out of love
