

The Right Wrong

The Feeling

Any kind of love is possible
Different from anything you know
Do you know what it is to be boundless unaware
Do you know what it is to be fearless free as air

I don't get the fool of you, I know
I just get the you you want to show
And it's only when you smile I can see your pain
Maybe that's why I try so hard to make you smile again

Jump into my backseat
We can take a ride
Or you just let me drive home
We can take it slow or
If you want to go far
We still got all night long
I can see you look back
Don't ever look back
Lonely days are long gone
So jump in if you love this
No one can judge this
Just do the right wrong
The right wrong

You know that your touch is magical
(You know it's magical, know it's magical)
But you don't know it's more, it's powerful
(Don't know it's powerful)
And this power that you command is still so unaware
It will take you miles from here, will take you anywhere
Oh

Jump into my backseat
We can take a ride
Or you just let me drive home
We can take it slow or
If you want to go far
We still got all night long
I can see you look back
Don't ever look back
Lonely days are long gone
So jump in if you love this
No one can judge this
Just do the right wrong
The right wrong

Just do the right wrong

Jump into my backseat
We can take a ride
Or you just let me drive home
We can take it slow or
If you want to go far
We still got all night long
I can see you look back
Don't ever look back
Lonely days are long gone

So jump in if you love this
No one can judge this
Just do the right wrong
The right wrong

You could just do the right wrong
The right wrong
You could just do the right wrong
The right wrong

(Jump into my, jump into my, jump into my backseat)
Just do the right wrong
(Jump into my, jump into my, jump into my backseat)
The right wrong
(Jump into my, jump into my, jump into my backseat)
Just do the right wrong
(Jump into my, jump into my, jump into my backseat)
The right wrong
