

# When I Look Above

## The Feeling

When I look above  
I do not long for gods in heaven  
I long for open hearts  
And eyes that judge on actions alone

I want to carry on  
I want this gift to keep on giving  
I want to sing my song  
And I don't care who sings along

I want to live my life  
Without the fear of something missing  
I want to close my eyes  
To all the things I'll never wrong

I want to feel real love  
I want to lose my sense of judgement  
I'll buy a small sailboat  
And we'll go sailing 'round the world

When I look above  
I do not long for gods in heaven  
I long for open hearts  
And eyes that judge on actions alone

I want the lights to go out  
On every town in every country  
In every country on the planet  
For just one minute to see the stars

And when the lights come up  
We'll all breathe and think and wonder  
Say: "What are we doing burning candles  
In stead of pissing in the dark?"

When I look above  
I see the clouds and think of you, love  
We did not dream enough  
't Was only luck that got us far

When I look above  
I do not long for gods in heaven  
I long for open hearts  
And eyes that judge on actions alone

When I look above  
I do not long for gods in heaven  
I long for open hearts  
And eyes that judge on actions alone
