

## A Million to One

The Five Satins

A million to one  
The odds were against me  
What could anyone do  
When the chances at you  
Were a million to one

A shot in the dark  
Is all I can show, dear  
Is it a tear and a sigh  
The old college try  
But it couldn't be done

I knew I'd never come out ahead  
I should have quit but instead  
I kept on playing (playing, playing, playing) just for fun

A million to one  
Now I've learned my lesson  
Never gamble again  
When the chances to win  
Were a million to one  
A million to one
