

Time

The Five Stairsteps

Time's
Movin' so fast
Or is it me who stops to cry
And lets the moments pass

My mind
Says time's a friend
There's so many things about ya
I don't understand

And there's so
Much for me
To know
(Yeah, yeah, yeah, yeah)
I've got so
Very far
To go
Woah (And it seems that)

One life
Just is not enough
To do the things to find myself
And keep my mind in touch

But one life
Is all I've got
To accentuate my optimism
Eliminate my doubt

Can't be unsure
Of what
I feel
(Must have directions, good vibrations)
I've got to know
What makes life
Real
(Re-, real)
I just feel
Love is real

Hey (Keep on tryin', keep on tryin', keep on climbin', time)
Time

Woah

Time is
Master of our change
I must be the drummer, who
Repeats the last refrain

No one should
Ever be so lost
(Slow) To slow
Slow me (Slow)
Down (Woah)

I

Am the only one who is that strong
We all
Need a little strength to carry on (Strength to carry on)
And I
Hope you get some wisdom from this song (Woah, I)

My
Life is such little part of time (Na, na, na, na, na)
And I
Never would be missed if left behind
We all
Need a little strength to carry on (Strength to carry on, woah)
And I hope you get some wisdom from this song

My
Life is such a little
Part of time
And I never would be missed
If left behind
'Cause my life is such a little
Part of
Time
