

# All The Best Things

The Fixx

There was a place we used to go  
It was a star we called our own  
And it was bright, so bright  
It was hope inside our eyes  
It put charm into our lives  
And we were so free, so free

I always felt that the more we had  
Was a burden on your and me  
Happiness comes to those who can believe  
That all the best things are free

There was laughter in our words  
Serious thoughts, they lay unsaid  
Of what we could be, (so let the minds unwind) what we  
could be (so let the soul begin)  
All we see has no surprise  
All of history in our eyes  
What have we learned? (we got the seven seas) what we  
learned (we learn in order to please)

I always felt that we were kept apart  
By the chase, no guarantees  
Yet I always had the urge to let you be  
All the best things are free  
All the best things are free  
Can't you see me?

Fate has played its hand  
Shoot the breeze with love at our command  
Time and tide, they say, waits for no one  
Hope is when the best is still to come

All the best things  
Are free  
(All the best things are free)  
(All the best things are free)  
(All the best things are free)  
Don't chase for guarantees  
Can't you see  
All the best things are free?  
All the best things are free  
All the best things are free  
All the best things are free  
All the best things  
(All the best things are free)  
(All the best things are free)  
(All the best things in life)  
(All the best things are free)  
(All the best things are free)  
(All the best things are free)  
(All the best things are free)  
(All the best things in life are)  
(All the best things are free)
